

# BUDDIES CUDDLE

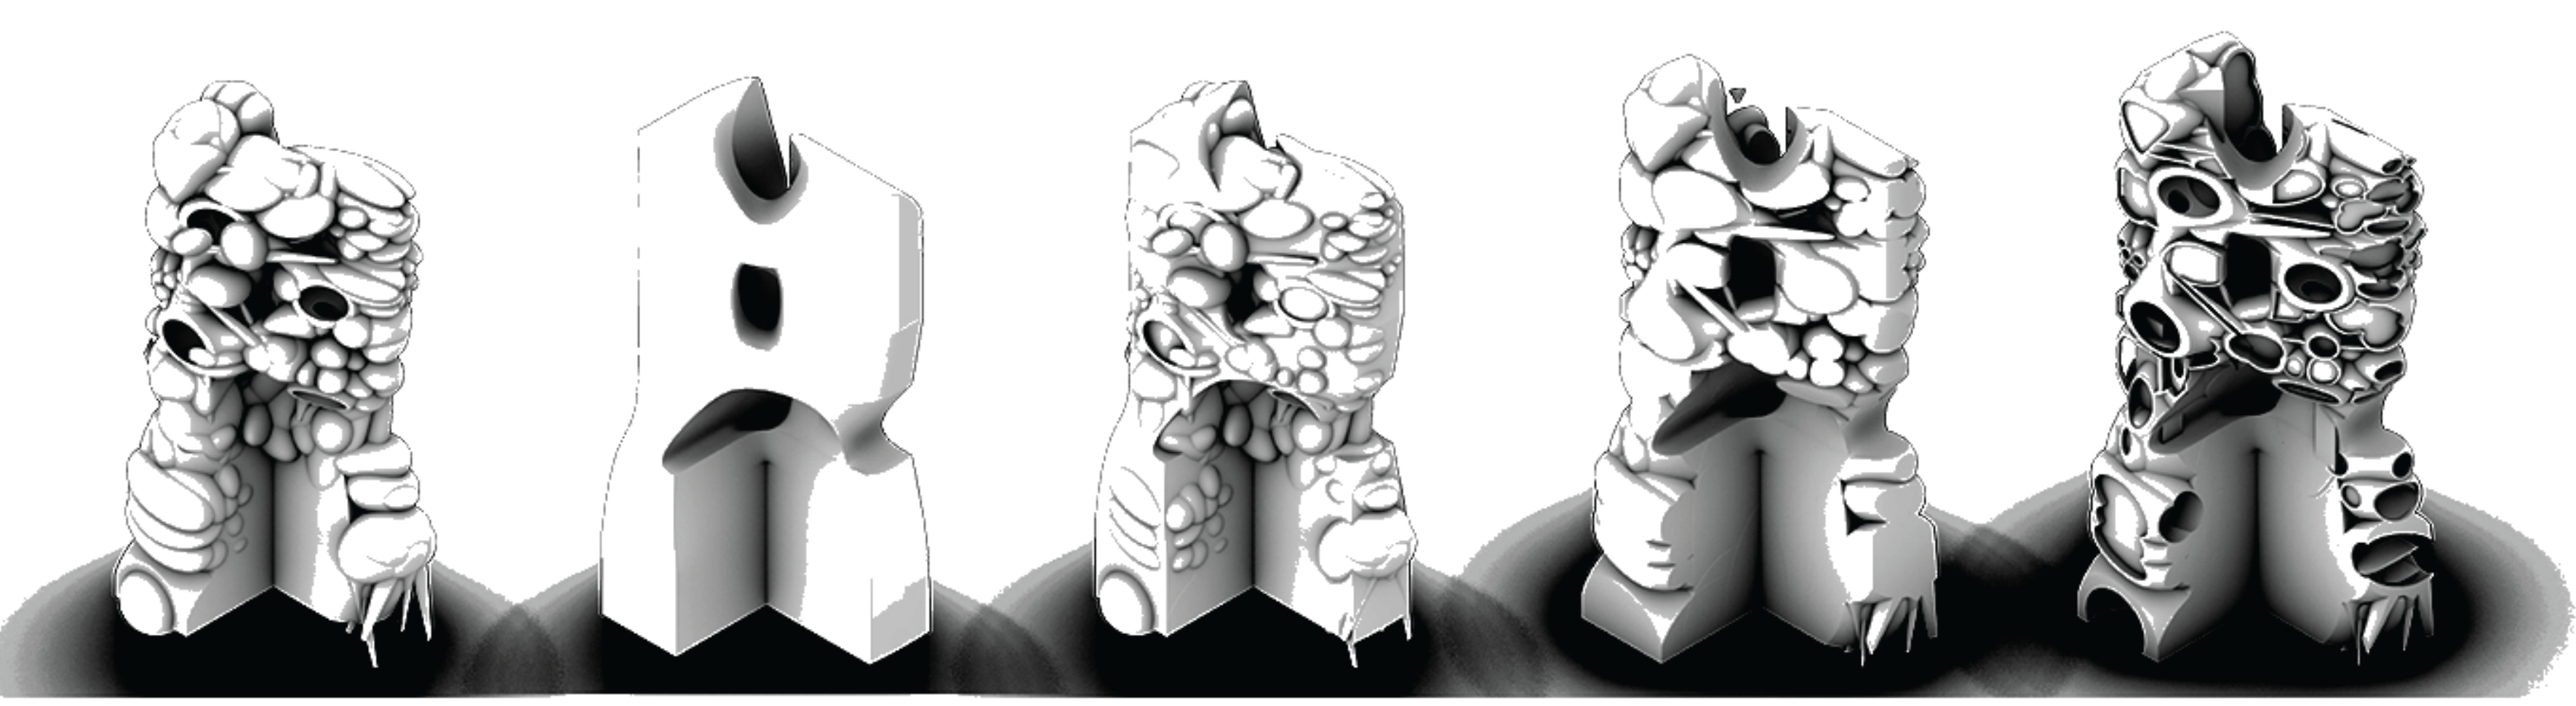

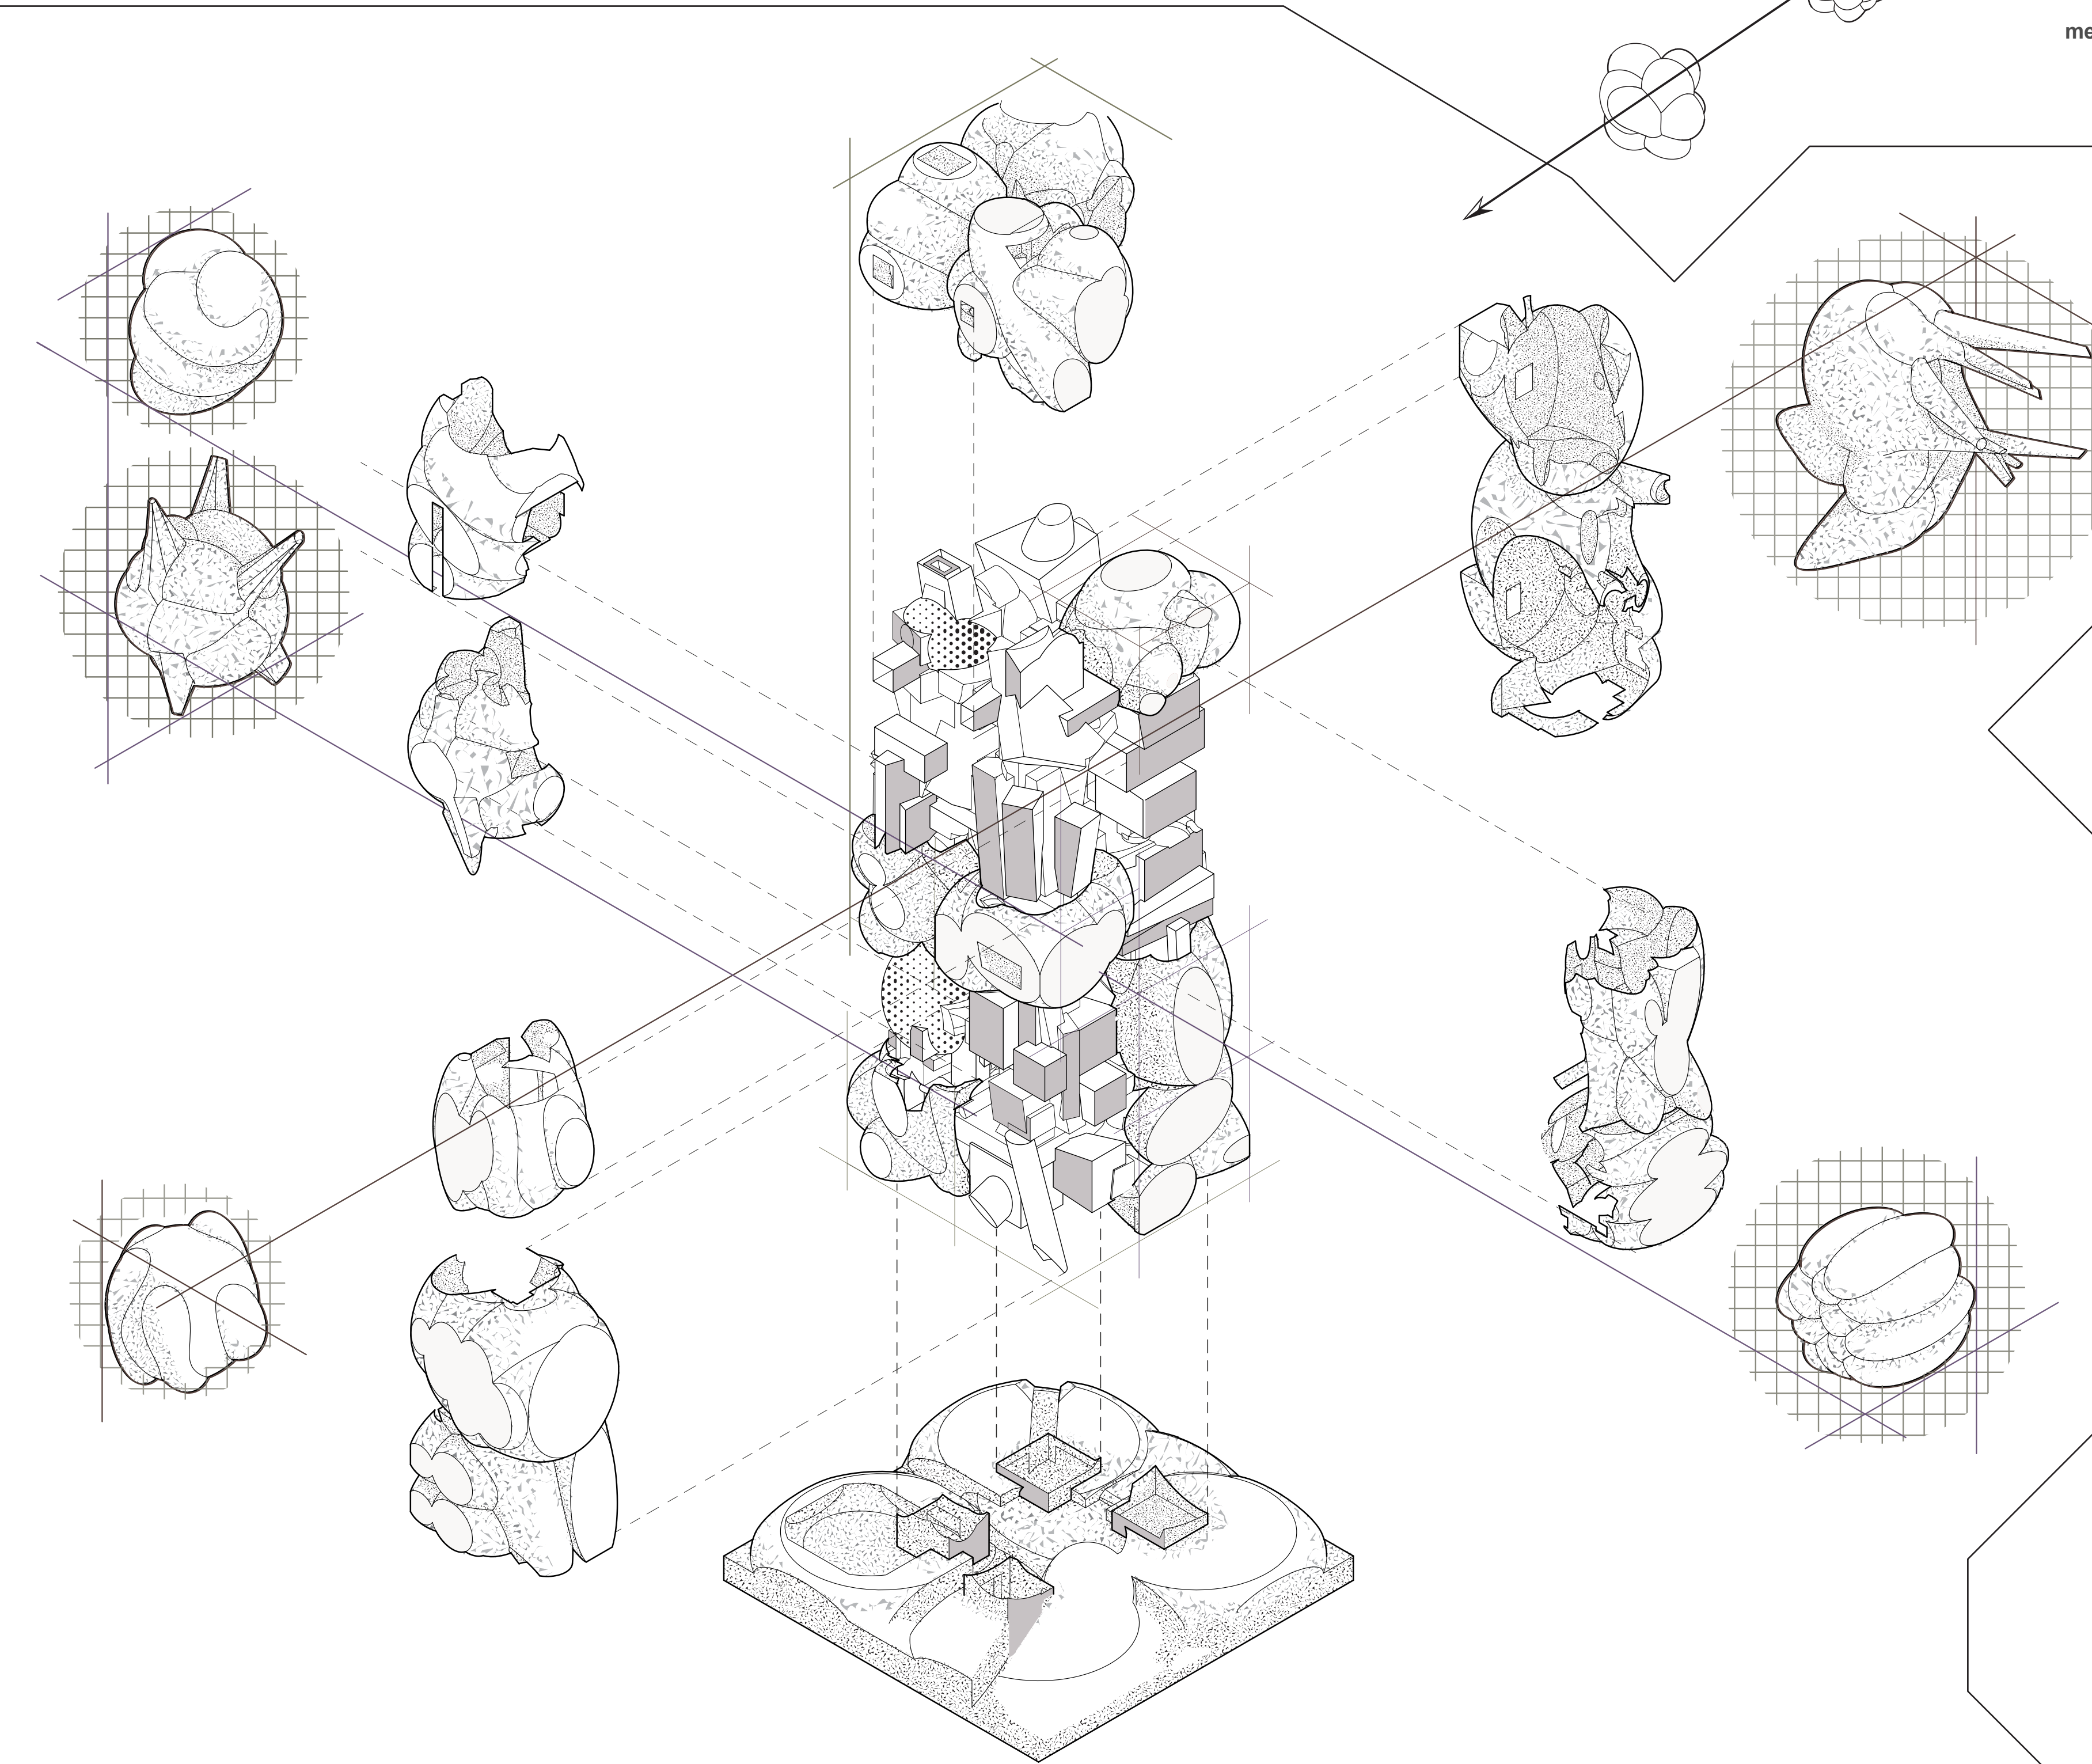

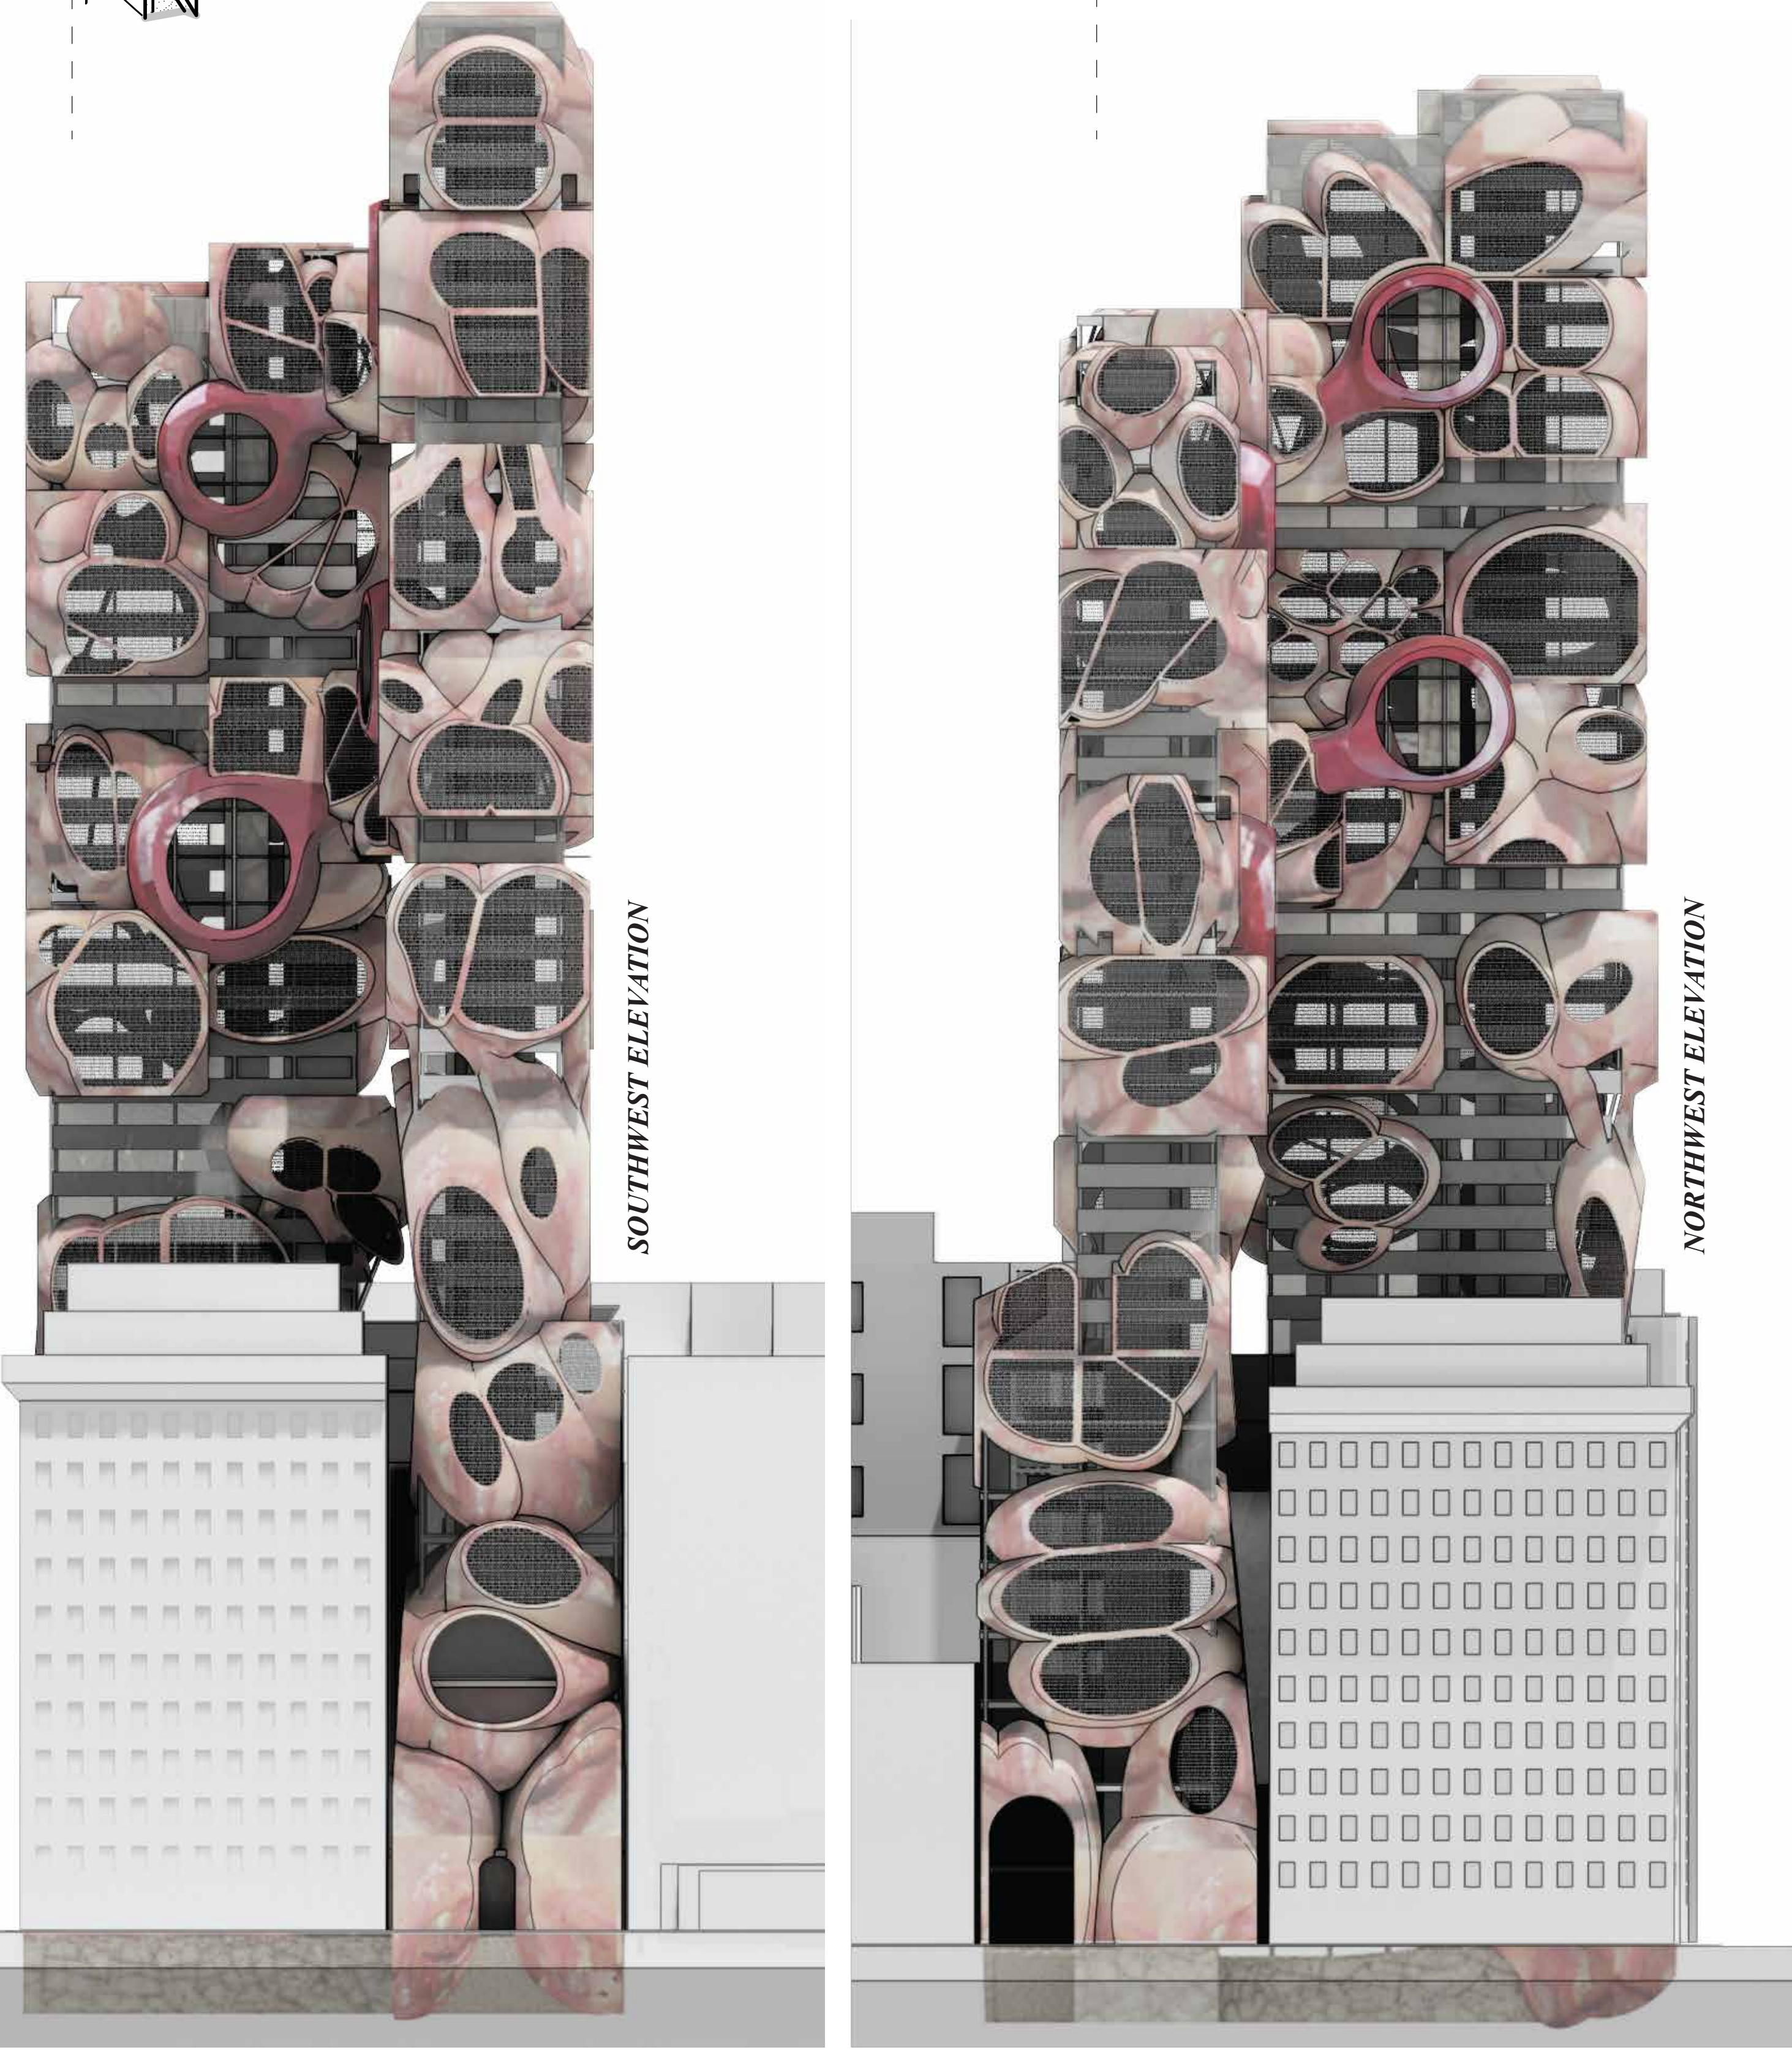

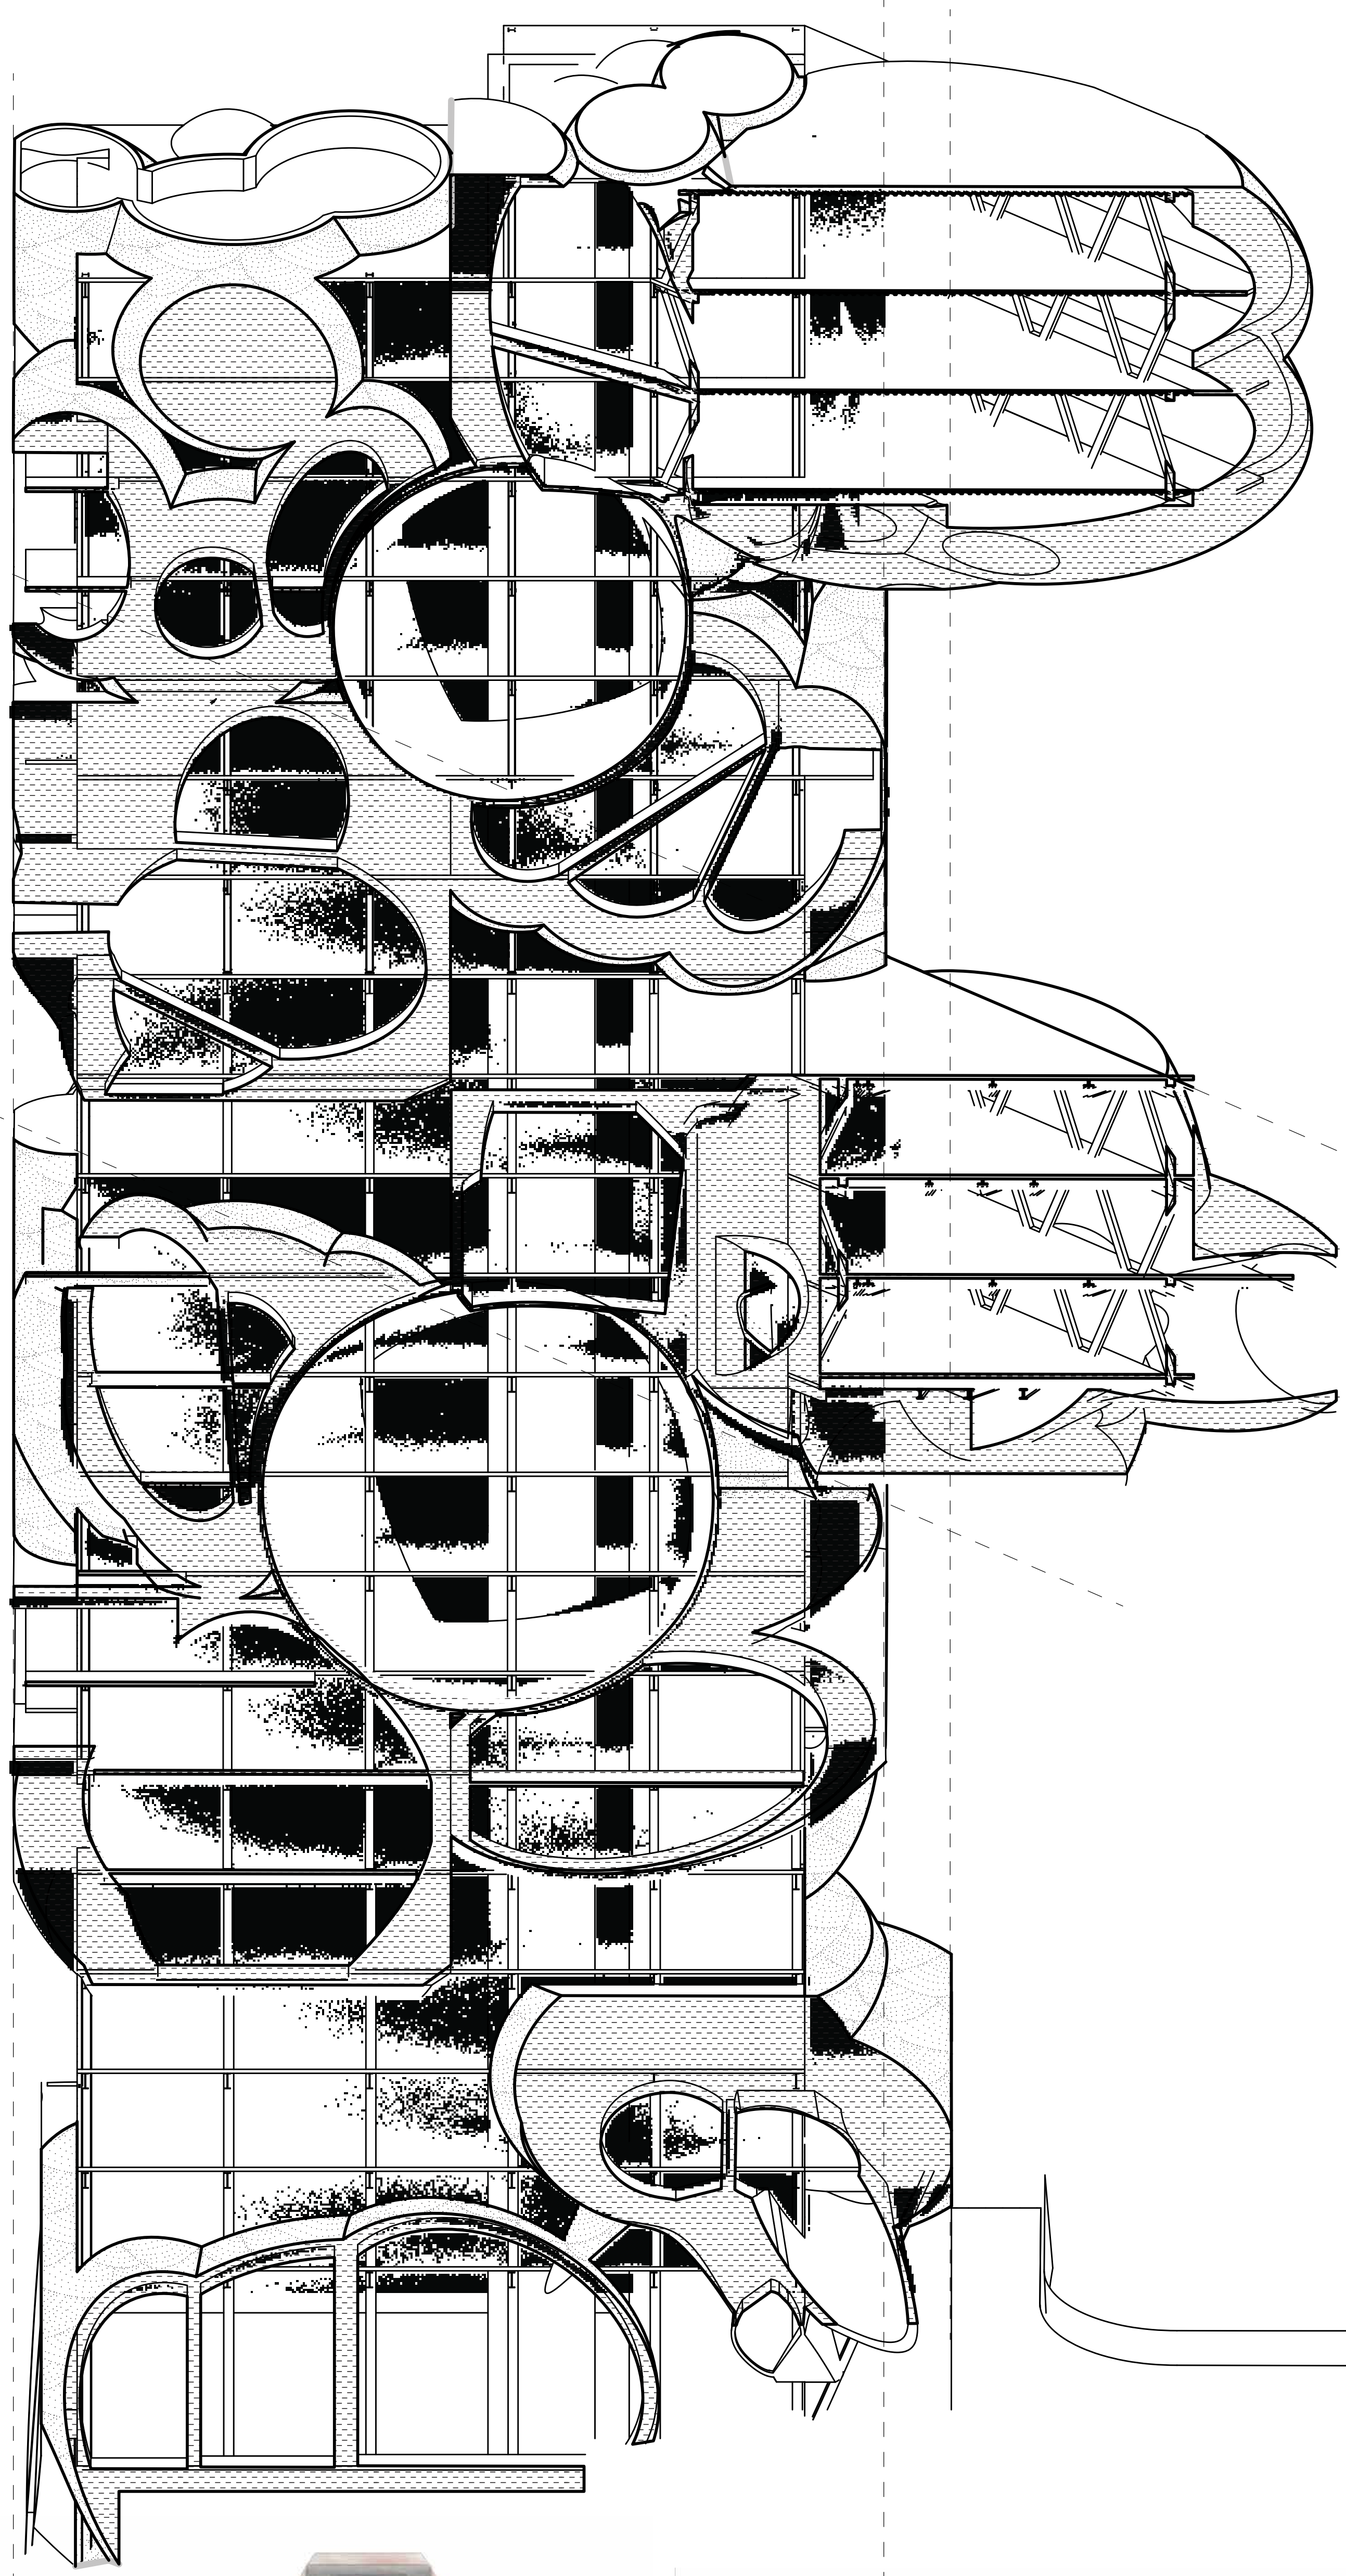

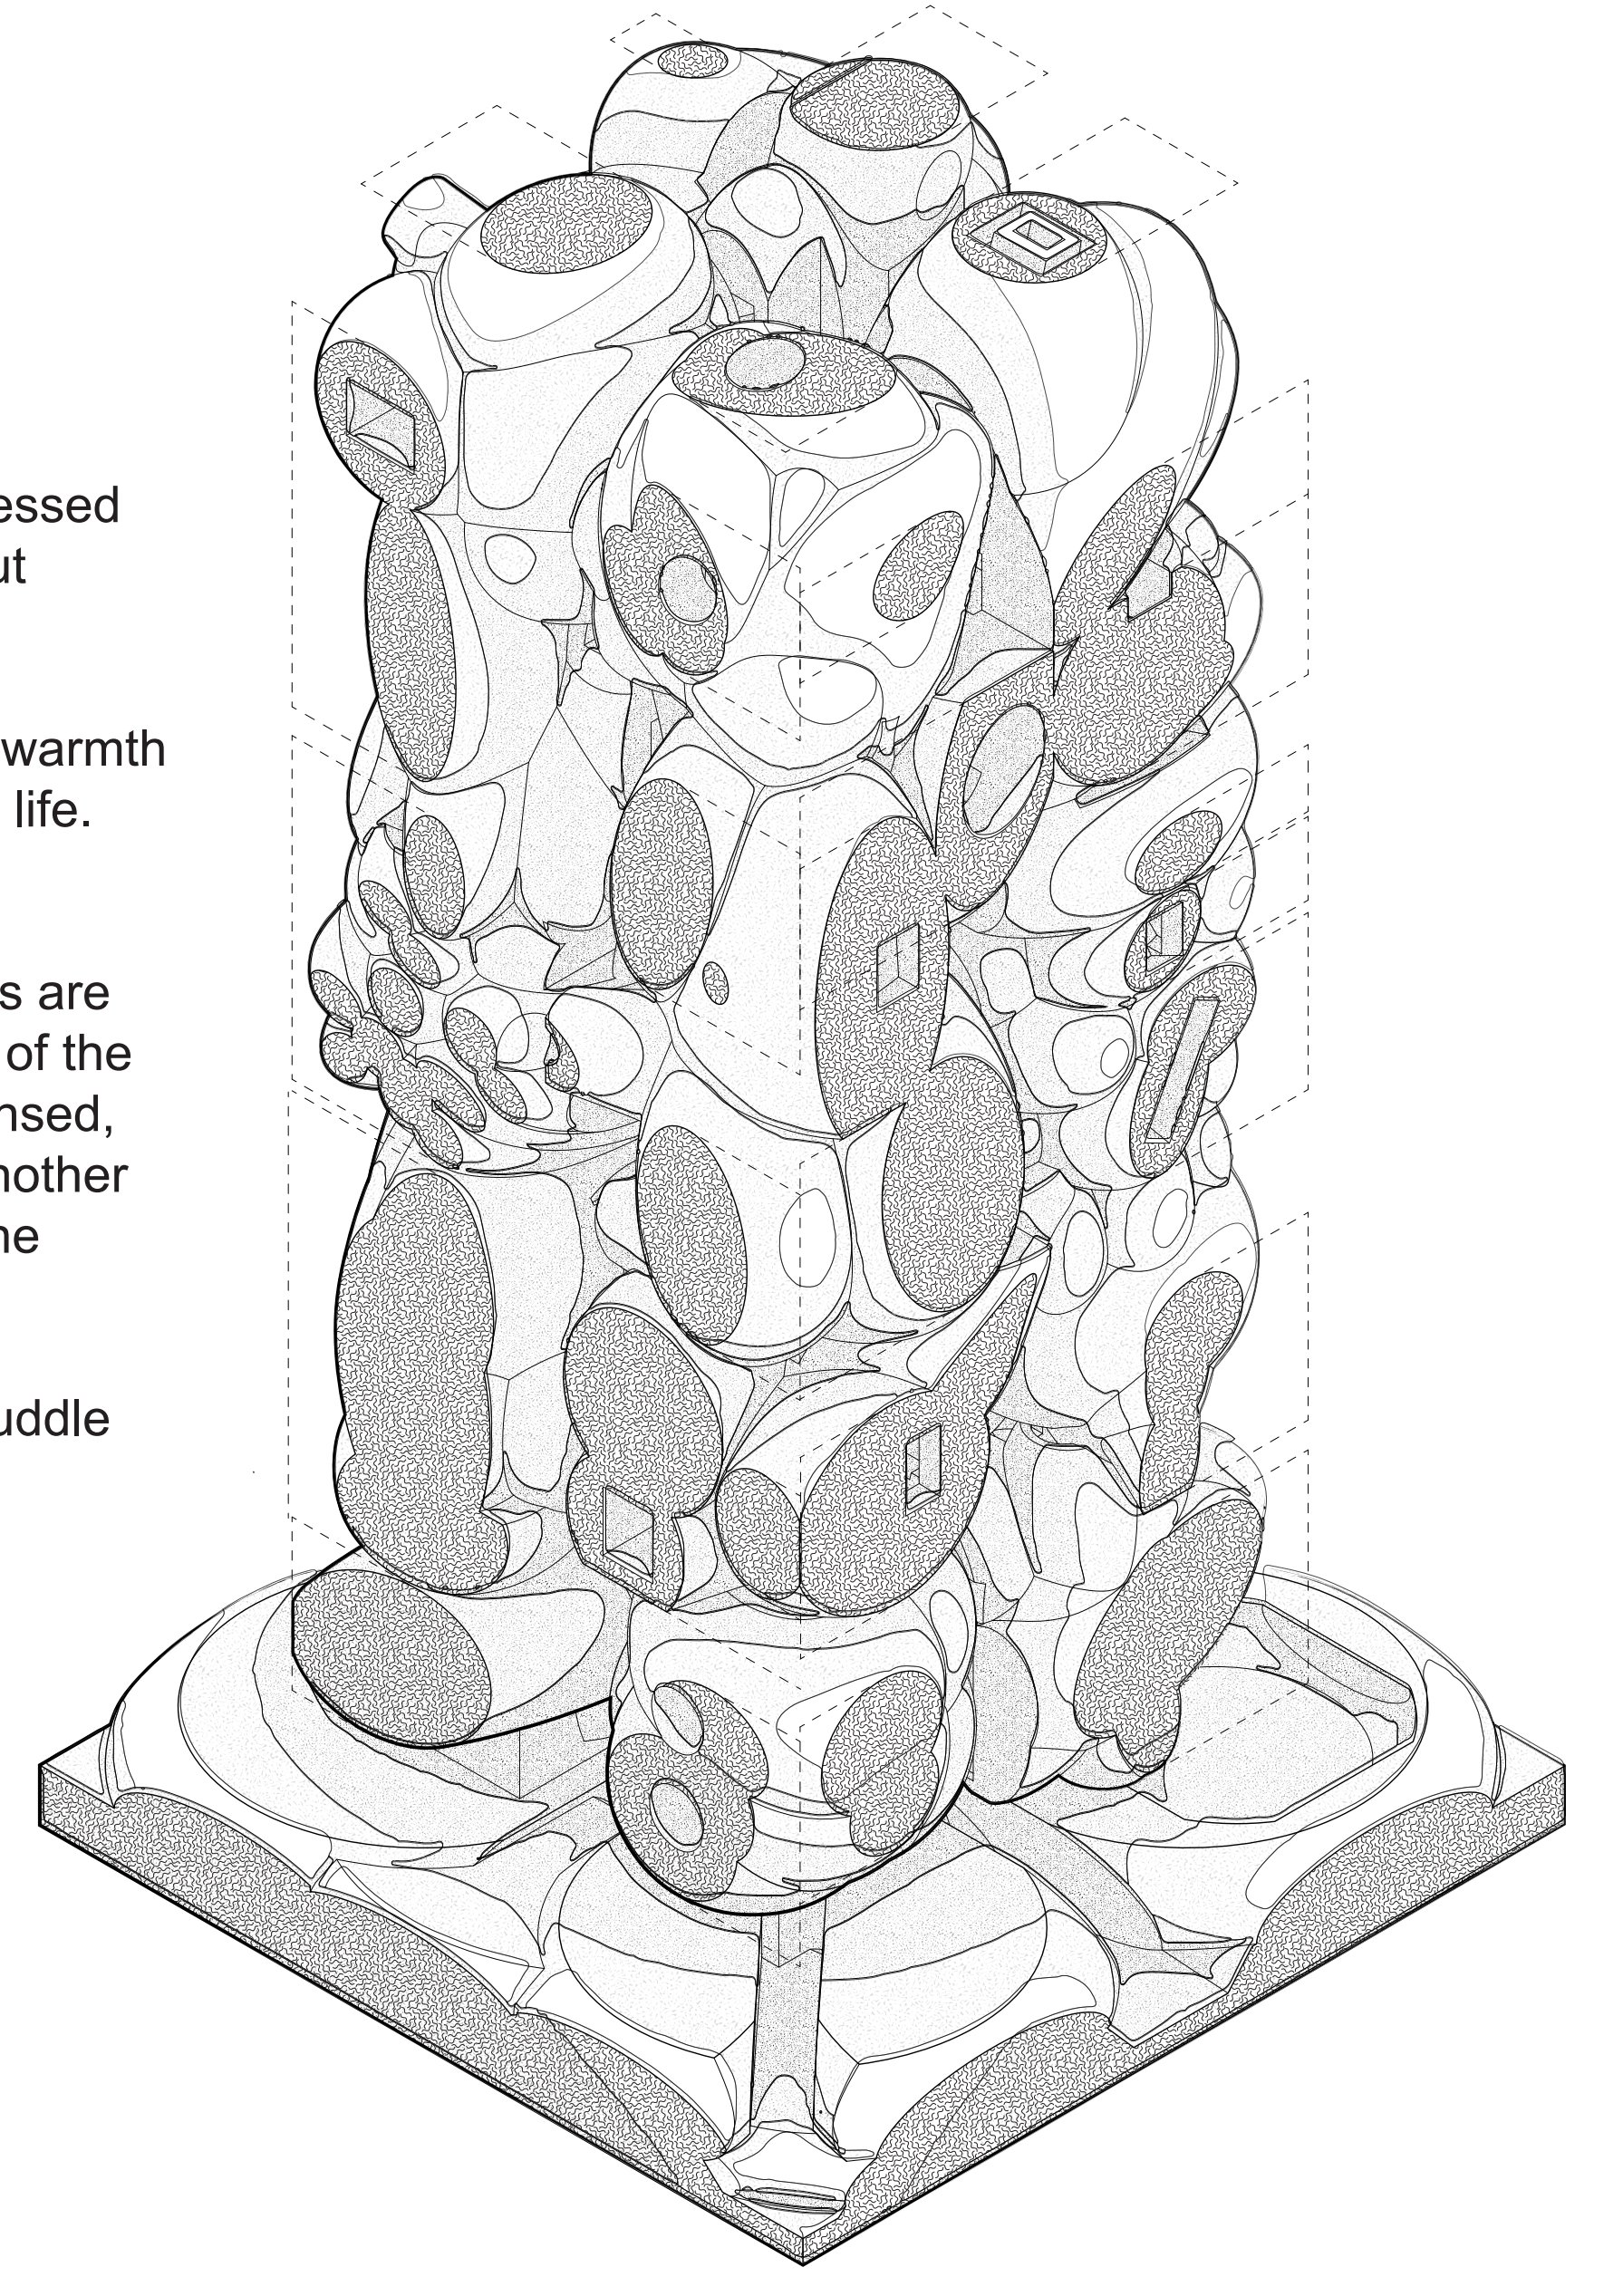

425,000 SF MIXED USE HIGHRISE, DTLA

Consider two soft forms, stuffed in a jar. Pressed against the glass. Distinguishably separate but unmistakably intimate.

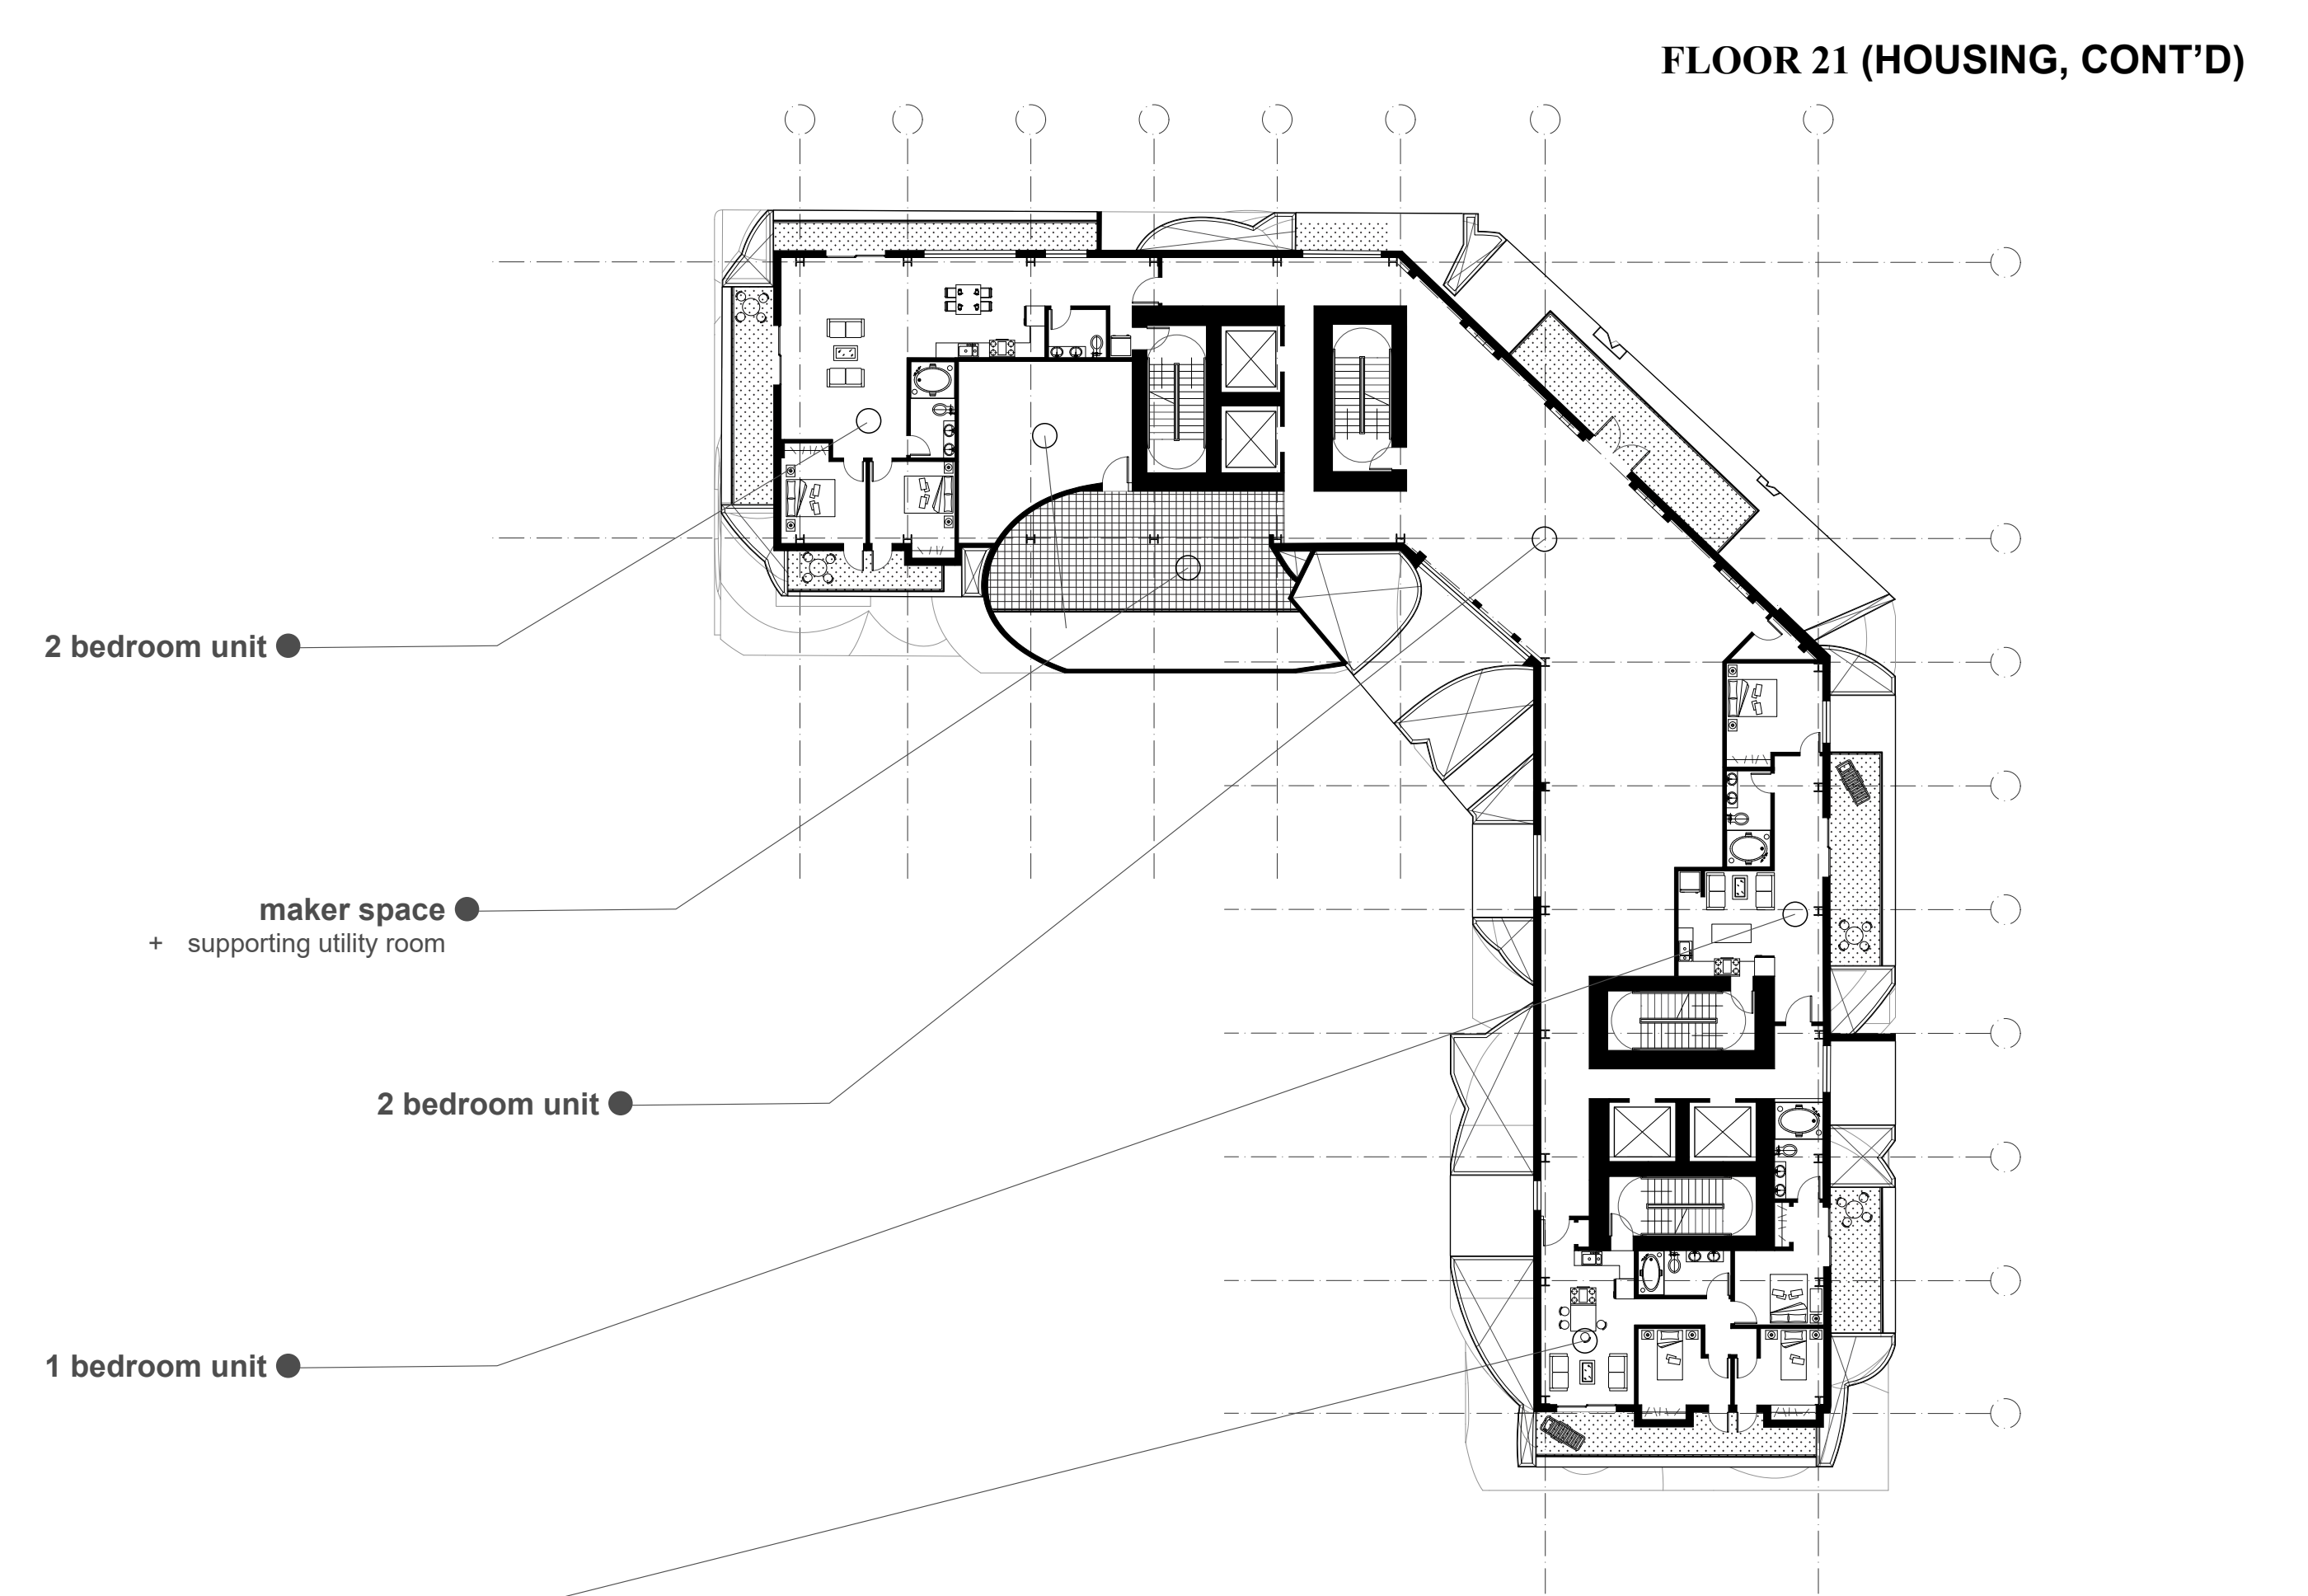

Closeness breeds warmth between bodies, warmth that fosters comfort, creativity, courage, and life. Yet our worlds only continue to expand.

Twenty unique, organic formal characters are stuffed into a jar designed by the conditions of the site. Each becomes a body, carefully condensed, truncated, rotated and slotted next to one another to nurture worlds inside them, reflective of the spontaneity and whimsy of their users.

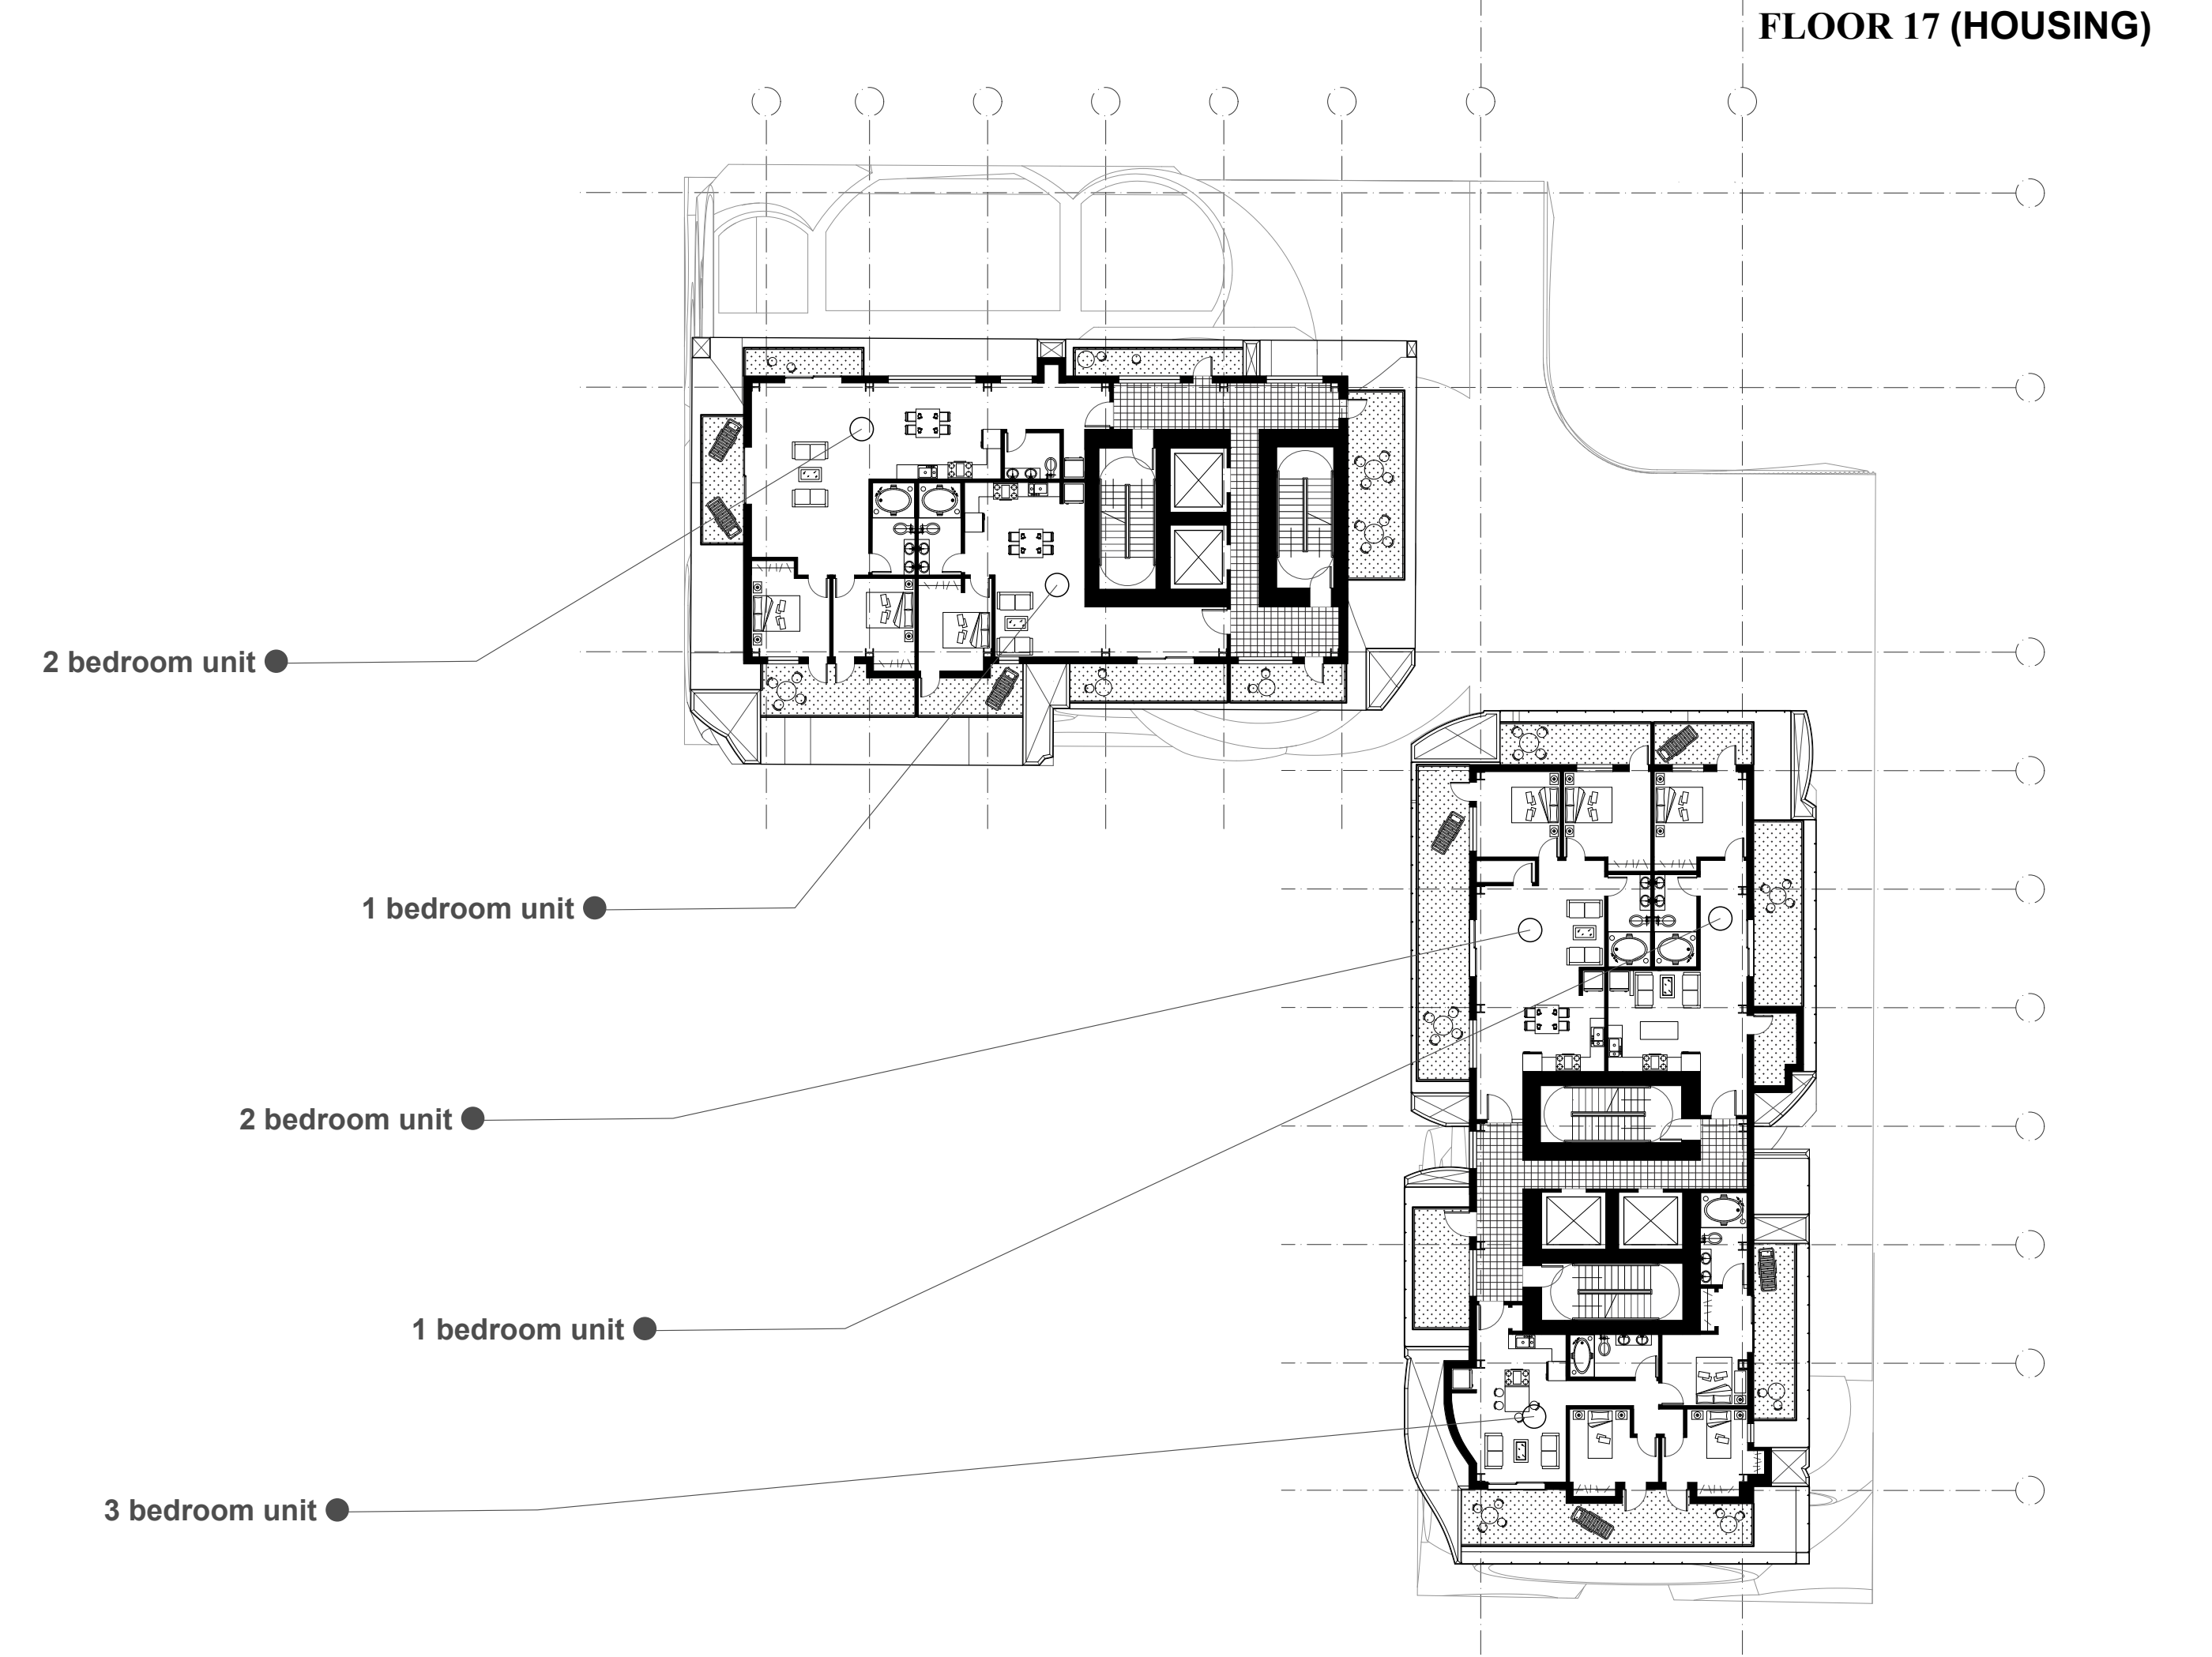

Closeness breeds warmth between these cuddle buddies.
